Hours: 94

The pre-anesthesia assistant program in particular permits students to take only three years of undergraduate classes before starting the MHSA program with Bluefield University in partnership with VCOM-Auburn. During their junior year, students will begin the application process for MHSA program. After successful completion of first year (65 hours) in the MHSA program, the College of Human Sciences will approve conferral of a student's Bachelor of Science in Nutrition/Nutrition Science. If a student does not complete the MHSA program, they will need to complete all outstanding (123 hours) of remaining Nutrition Science courses for degree completion.

^{*} Students who take the UNIV 1150 Pre-Health Learning Community course will receive credit for the SCMH 1890 course.*
