Curriculum Vitae

July, 2017

Address

258 Spidle Hall
College of Human Sciences
Auburn University
Auburn, AL 36849

Contact

Email: tef0005@auburn.edu
Office Phone: 334-844-3218

Education

- 2010 Ph.D. in Developmental Psychology, Department of Human Development, Cornell University, Ithaca, NY
- 2007 M.A. in Human Development, Department of Human Development, Cornell University, Ithaca, NY
- 2003 B.A. (summa cum laude) in Psychology and Biochemistry
University of Colorado, Boulder, CO

Positions and Employment

- 2013- Associate Professor, Auburn University, Department of Human Development and Family Studies ([Link to Departmental Webpage](#))
- 2011-2013 Robert Wood Johnson Health & Society Scholar, University of Wisconsin-Madison; Department of Population Health Sciences
- 2010-2011 Postdoctoral Research Fellow. Achievement Research Lab (Dr. Jacquelynne Eccles) Institute for Social Research; Department of Psychology, University of Michigan.
- 2006-2010 Graduate Student Research Assistant. Lifespan Resilience (Dr. Anthony D. Ong); Social Interventions and Life-course Transitions (Dr. Karl Pillemer) Department of Human Development, Cornell University
- 2004 – 2008 Graduate Student Teaching Assistant, Department of Human Development, Cornell University
- 2003 – 2004 Civil Rights Educator/Community Outreach Specialist for Housing Opportunities Made Equal, Inc., Buffalo, NY

Research Support

Funded/Ongoing Research Support:

*Total cost amounts are shown (with direct cost amounts shown in parentheses where relevant).

Alabama Agricultural Experiment Station AgR-SEED Grant. "Expanding the Science of Race and Health in Rural America." T. Fuller-Rowell (PI), 2016-2018.

The goal of this seed grant is to lay the groundwork for a subsequent project that will advance knowledge of race-based inequalities in health by increasing the diversity of the Midlife in the U.S. (MIDUS) study sample and examining mechanisms for racial/ethnic health disparities.

Role: PI

R01AR065493 NIH-NIAMS R01. "Psychosocial Stress and Lupus Among African American Women." D. Chae (PI), 2014-2019.

The goal of this study is to examine whether experiences of racial minority stress are associated with disease progression and severity among African American women with lupus.

Role: Co-I

1R01AG047154-01A1--NIH National Institute on Aging R01. "Longitudinal Perspectives on Race and Health in MIDUS: Insights from Milwaukee." C. Ryff (PI), 2015-2018.

The goal of this project is to examine health trajectories of African American adults living in Milwaukee, as compared to Whites of similar economic and educational backgrounds.

Role: Co-I and site-PI for subcontract.

Auburn University Intramural Grants Program (AU-IGP). “Racial Disparities in Health during Tertiary Educational Attainment: A Longitudinal Study.” T. Fuller-Rowell (PI), 2015-2017. The goal of this project is to examine explanations for race differences in the health consequences of educational attainment across the college years.

Role: PI

Grants Under Review or Revision:

NIH National Heart, Lung, and Blood Institute R15. “Social determinants of Sleep and Sleep Disparities among College Students.” T. Fuller-Rowell (PI).

The objective of this study is to examine how childhood adversity and contemporaneous stress combine to influence sleep and sleep disparities during higher education.

Role: PI

NIH National Institute on Aging R01. “Expanding the Science of Race and Health in MIDUS.” T. Fuller-Rowell (PI).

The objective of this grant is to add a missing demographic (African Americans residing in the South) to the Midlife in the U.S. (MIDUS) study in order to examine specific racial/ethnic disparities.

Role: PI

R01HL136752—NIH National Heart, Lung, and Blood Institute R01. Child Sleep as a Mechanism and Moderator in the Development of Health Disparities. M. El-Sheikh (PI).

The goal of this study is to examine socioeconomic and racial disparities in sleep among children, and to consider the role of sleep in health disparities.

Role: Co-I

NIH National Heart, Lung, and Blood Institute R15. “Childhood Obesity, Parent-Child Body Perceptions, and Racial Disparities: Health Behavior and Mental Health Implications.” P. Ulrich (PI). The goal of this grant is to examine the link between maternal perceptions of their child’s body size and the parenting of health behaviors among African Americans and Whites.

Role: Co-I

Completed Research Support

Auburn University Intramural Grants Program (AU-IGP). “Mechanisms for Health Disparities among College Students.” T. Fuller-Rowell (PI); 2014-2015. Using data recently collected by the PI, the goal of this research is to examine the differential health consequences of educational attainment for African American and white college students. Specifically, the aims are to (1) evaluate race differences in biomarkers of chronic stress (allostatic load) during college, and (2) consider two specific explanations for race differences: (A) physiologic reactivity to academic evaluation, and (B) self-reports of college stress.

Role: PI

UW Institute for Clinical and Translational Research (ICTR) Health Equity Pilot Award. “Health Trajectories of Black and White College Students.” T. Fuller-Rowell (PI), 2013-2014. The purpose of this grant is to fund biomarker assays for participants in the “Robert Wood Johnson Foundation Research Grant” described below.

Role: PI

Robert Wood Johnson Foundation Research Grant. "Health Trajectories of Black and White College Students." T. Fuller-Rowell (PI); 2012–2013. The goal of this project is examine racial disparities in health across the college years, and consider psychosocial and biological mechanisms for these effects.

Role: PI

Robert Wood Johnson Foundation Pilot Grant. "Autonomic Nervous System Reactivity to Psychological Stress: Training and Protocol Development." T. Fuller-Rowell (PI), 2011-2012. The focus of this grant is to (1) develop skills in measurement of autonomic nervous system (ANS) functioning and reactivity (impedance cardiography, electrocardiography, and blood pressure), and (2) to develop a protocol to capture race differences in reactivity to academic stress tasks among college students.

Role: PI

Postdoctoral Research Support. "Race Based Social Stress and Health Trajectories from Adolescence to Adulthood." RC2 AG036780-01, J. Eccles (PI), 2009-2011. The focus of the project is to examine associations between racial/ethnic classifications, developmental histories of perceived discrimination and biomarkers of chronic stress and health in young adults. Biomarkers examined include the basal functioning of multiple biological systems (cardiovascular, endocrine, immune, inflammatory, metabolic, and sleep) as well as reactivity to race-based social stressors

Role: Postdoctoral Research Fellow

Other Honors and Awards

- | | |
|------|---|
| 2011 | Selected as a Robert Wood Johnson Foundation Health and Society Scholar (http://www.healthandsocietyscholars.org/) |
| 2010 | Selected for a Postdoctoral Research Fellowship at the University of Michigan, Institute for Social Research |
| 2008 | Awarded Cornell Dissertation Research Fellowship |
| 2006 | Awarded Cornell Urban Scholars Research Support Fellowship |
| 2006 | Awarded Summer Graduate Research Fellowship from Cornell Urban Scholars |
| 2005 | Awarded Summer Graduate Research Fellowship from Cornell Urban Scholars |
| 2003 | Awarded Summa Cum Laude Honors for Thesis in Psychology. Title: "Examining the Association between Belief Rigidity, Personality Rigidity and Mental Health" |
| 2003 | Awarded Summa Cum Laude honors for Thesis in Interdisciplinary Studies. Title: "Cynicism: A Battle in the Mind or a Problem in the World? An Inquiry into the Contemporary Worldview" |
| 2002 | Teets Family Merit Scholarship. "For students demonstrating exceptional promise to contribute to science in service of the public good." |
