ACADEMIC EXPERIENCE

Instructor of Record Summer 2025-Present

Auburn University

- Teach 85 students a semester about the core concepts of HDFS
- Create activities to foster application of material
- Grade and provide feedback to students on a regular basis
- Create exams that assess students' knowledge of class concepts
- Build relationships with students that encourage the continuation of HDFS courses

Graduate Research Assistant August 2023-Present

Auburn University: Dr. Cynthia Frosch's EARLY Lab

- Participate in ongoing research projects with research team composed of doctoral students
- Discuss empirical articles and goals for completion of lab projects
- Complete observations of early learning environments and literacy engagement
- Form connections with potential partners for future research projects across the state of Alabama
- Engage in weekly research lab meetings with advisor
- Explore career paths and opportunities in academic and applied spaces

Graduate Teaching Assistant August 2023-Spring 2025

Auburn University: Dr. Stephanie Baumann

- Grade various exams, projects, papers, and assignments for large seminar classes and upper-level classes in HDFS
- Create more efficient ways to input and store evaluations for internship program
- Produce data visualization of student's progress for faculty presentation
- Prepare materials and present a guest lecture for HDFS 2000
- Engage in weekly meetings with advisor to discuss tasks for the next week
- Complete tasks in a timely and efficient manner

Graduate Research Assistant May 2024-August 2024

- Create a resource directory for family childcare partnerships across the state of Alabama
- Assist in FCCP conference preparation, distribution, and organization
- Help the media team to create outreach materials from the conference

Graduate Research Assistant October 2021-May 2023

West Chester University: Dr. Eleanor Brown's Early Childhood Cognition and Emotions Lab

- Participate in ongoing research projects with research team composed of undergraduate, masters, and doctoral students
 - Discuss empirical articles and goals for completion of thesis project
 - Collect cortisol from children and a Head Start preschool in Philadelphia
 - Conduct learning assessments with the children in our study
 - Complete parent interviews to add demographic, emotional, and other important information as an additional factor to our study
 - Analyze and code emotions and behaviors of the children in person
 - Videocode behaviors, expressions, classroom environments, teaching quality, etc.
- Train and test new research assistants on their knowledge of the procedures of the lab

Undergraduate Research Assistant November 2019-December 2020

The Pennsylvania State University: Dr. Newman's Anxiety and Depression Lab

- Participate in ongoing research projects with research team composed of ten other undergraduate and graduate students
- Contribute to discussions on empirical articles, literature reviews, and meta-analyses.
 - Use databases such as Wiley, ScienceDirect, PsycINFO, EBSCO, and more.
- Perform studies, collect data, and import into databases for further examination.
 - Virtual Reality Exposure Therapy study
 - Lead participants through a series of virtual reality scenarios to help diminish social anxiety
 - Mindfulness and GAD Dissertation study
 - Administer neurological tests to track participant's GAD as they complete mindfulness training
 - Health and Fidelity Monitoring study
 - Rate coaches' reviews to clients using a program called Silvercloud that deals with mental health research

Undergraduate Teaching Assistant August 2020-December 2020 The Pennsylvania State University, University Park, PA

Undergraduate TA, *Human Development and Family Studies 411 - The Helping Relationship*

- Teach 15 students the skills to reflect, paraphrase, summarize, ask questions, and confront others in a helping relationship setting
- Help instruct lab, grade work, and attend weekly planning meetings
