### HOW TO REPORT A CRIME OR INCIDENT
- **Where to report an incident** - It is your right – your choice – to report the incident to the police or not. Reports made to the university and reports made to the police are separate and parallel. Utilizing campus resources, such as Safe Harbor or Student Counseling and Psychological Services, does not automatically require a report of the incident be made to the police. The Title IX Coordinator will not notify police, unless directed by the victim or if the victim is a minor (as required by Alabama law) but may conduct an investigation that could lead to university action.
- **I don't know what to do** - Don't know where to start when you've experienced a crime? Start here.
- **Sexual misconduct resources for students**
- **How to report a bias-related incident** - A bias-related incident involves acts, behaviors, conduct or communications against a person, motivated by the offender’s biases regarding age, disability, ethnicity, gender, gender identity/expression, nation origin/nationality, race, religion, sex, sexual orientation, veteran status, or other identity. These acts, behaviors, conduct or communications may produce an unwelcoming environment. Bias often stems from fear, misunderstanding, hatred, or stereotypes and may be intentional or unintentional.
